It was discovered that in the supplementary material appended to the article, there is a serious error in Table S4. “ $\delta^{15}\text{N}$, $\delta^{13}\text{C}$, $\delta^{13}\text{C}_{\text{ap}}$, and $\delta^{18}\text{O}_{\text{ap}}$ (‰) Mean \pm SD, Range, and number of samples of humans analysed in this study”, a column is missing where the sex and age estimation of each individual is indicated. The Publisher decided to ‘resupply’ (update) the XML and online PDF of the article. Unfortunately, the discovery of the errors was too late to correct the printed issue.

The author would like to apologise for any inconvenience caused.
