

Supplementary Table 1.- The logistic regression analysis of the dependent variable (use of biologics).

**Variables for the use of biologics**

	B	ET	Wald	df	Sig.	Exp(B)	95,0% IC for Exp(B)	
							Lower	Upper
Male	2.059	0.832	6.119	1	0.013	7.840	1.534	40.076
Age	-0.016	0.017	0.834	1	0.361	0.984	0.952	1.018
csDMAR	0.900	0.739	1.484	1	0.223	2.460	0.578	10.473
D erosive	0.624	0.968	0.416	1	0.519	1.867	0.280	12.444

Age, sex, baseline use of csDMARDs, and erosive radiographic damage were selected as independent variables.
